DETAILED ACTION

Response to Amendment

1. All objections and rejections presented in the office action mailed June 27, 2003 are withdrawn in light of the amendment.

Allowable Subject Matter

2. Claims 1-3 and 5-18 are allowed.
3. The following is an examiner's statement of reasons for allowance: it is neither anticipated nor obvious over the prior art of record to have an ozone generator as claimed by Applicant in claims 1 and 18 wherein the second electrode is in contact with the second face of the dielectric member or plate.
4. US 4,666,679 to Masuda et al. (Masuda) and US 2001/0046459 A1 to St. Onge et al. (St. Onge) each disclose the second electrode to not be in contact with the dielectric layer. Modifying either reference to place the dielectric in contact with the second electrode would require hindsight.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
